CAMPUS COMMUNITY FOR GOVS

What **CampusHub** Is

CampusHub is designed to be a central place for APSU students to connect, find activities, communicate, and use a student marketplace.

- Primary audience: APSU students, especially transfer students and students new to campus
- Main idea: combine campus connection, activity discovery, marketplace, and messaging in one platform
- Focus: verified student access and a simple experience that works on desktop and mobile

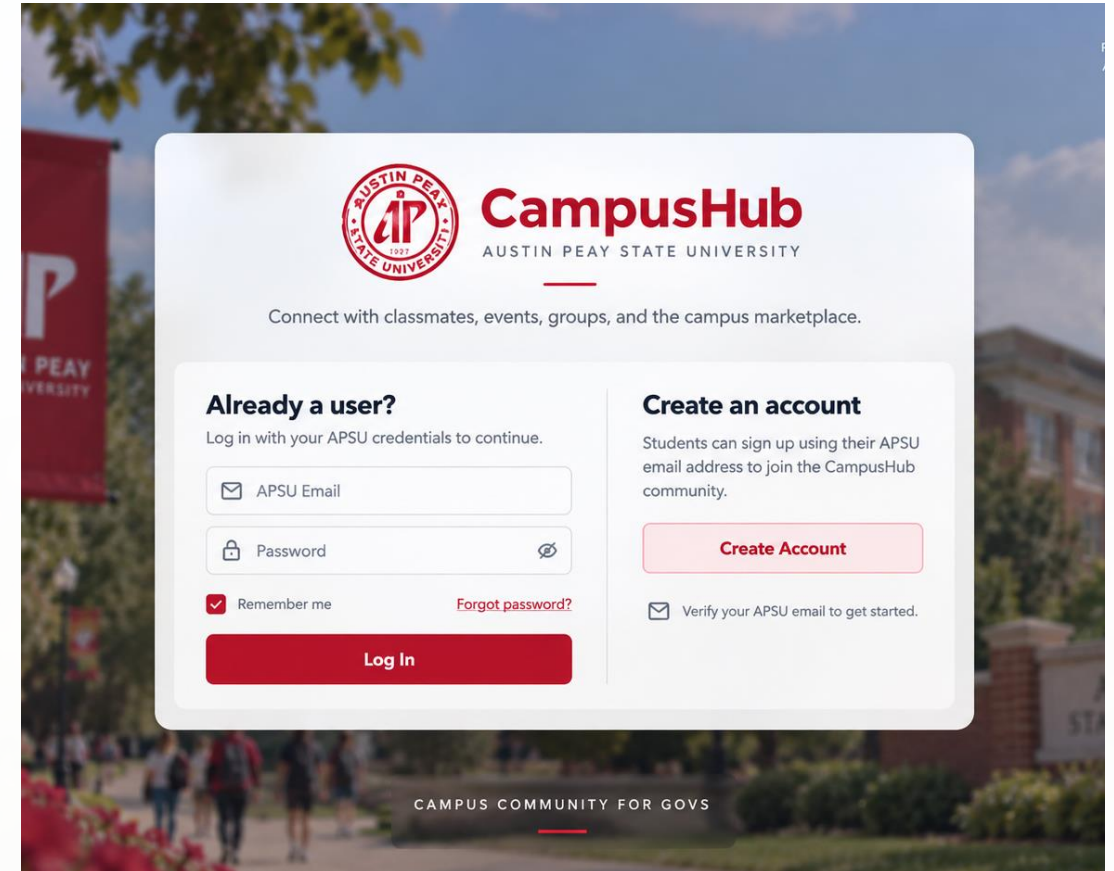

Goal

Give students one place to meet classmates, organize activities, and communicate safely.

Account Access and Creation

- Users start on an account access page with Sign In and Sign Up options
- Sign Up requires a valid APSU student email address
- CampusHub sends a verification code before account creation continues
- Password rules require length, uppercase, lowercase, number, and special character
- Unverified users cannot access authenticated CampusHub features

Profile editing

Students can only edit their own profile and save validated changes.
